Achieve
LEED-points
by installing flooring from
Quick•Step

QUICK·STEP ®

LEED points for Quick-Step flooring produced in Europe

Category	Intent	Requirements[1]	Points	Quick-Step fulfillment
Materials & Resources MR Credit 4 Recycled Content	Increase demand for building products that incorporate recycled content materials, thereby reducing impacts resulting from extraction and processing of virgin materials.	Sum of recycled content constitutes at least 20% of material input.	2	The laminate floorings contain at least 30% of recycled material.
Materials & Resources MR Credit 5 Regional Materials	To increase demand for building materials and products that are extracted and manufactured within the region.	Use building materials or products that have been manufactured, within 800 kms of the project site for a minimum of 10% or 20%, based on cost, of the total materials value.	2	The laminate floorings are produced in Belgium. They are distributed from central, regional warehouses. The total distance to the project site will most probably not exceed 800 km.
Materials & Resources MR Credit 7 Certified wood	To encourage environmentally responsible forest management.	Use a minimum of 50% (based on cost) of wood-based materials and products that are certified in accordance with the Forest Stewardship Council's principles and criteria, for wood building components.	1	The laminate floorings contain 70% PEFC certified wood. PEFC is similar to FSC.
Indoor Environmental Quality IEQ Credit 4.3 Low-Emitting Materials – flooring systems	To reduce the quantity of indoor air contaminants that are odorous, irritating and/or harmful to the comfort and well-being of installers and occupants.	Projects outside the U.S. may use products tested and deemed compliant in accordance with either the CDPH standard method (2010) or the German AgBB Testing and Evaluation Scheme (2010).	1	The laminate floorings are certified by DiBt and carry the Ü-sign.
